

Eastfield Division Councillor's Monthly April Report to Members of Eastfield Town Council 29 April 2024.

As per usual any complaints and concerns of Eastfield Residents have either been dealt with or I am currently dealing with.

I attended the High Street PACT Meeting 28 March at the Legacy Offices.

Had a delightful morning at the Eastfield Community Market 30 March. We'll done to all concerned from the Eastfield Residents Association.

2 April & 16 April I attended The Veterans Social Gatherings at 120 Westway.

4 April saw me taking part in a Constituency Committee Briefing online.

I held my Monthly Councillors Surgery at the Westway Open Arms 8 April. Several residents popped in to see me.

10 April I was invited for a conducted tour around the McCain Factory in Eastfield with special reference to their new effluent treatment plant which had now been installed before discharge to the long sea outfall pipe to Wheatcroft in the North Sea. The work undertaken by McCains on this plant at no small cost is nothing short of exceptional, the water now before being discharged into the Long Sea Outfall Pipe is virtually crystal clear.

11 April I attended The NY Scarborough & Whitby Area Planning Committee Meeting in the Town Hall Scarborough to address the Committee on the Agenda Item of the change of use of the Retail Outlets to Flats at Jazz Court Eastfield. I spoke against this application. This application I am delighted to say was refused.

11 April I attended The Eastfield Residents Association Meeting at 120 Westway.

22 April. I was delighted to accept an invitation from The National Coastwatch Institution to visit their unit on Royal Parade Filey as their 'Friend from NYC. I was asked because of my own personal sea going career in my early adult life.

24 April. A virtual meeting with an update on Alparmare Water Park.

25 April I was invited to attend a Meeting with Highway Officers in the Town Hall Scarborough. Where I raised several issues regarding parking provision in Eastfield and the plea of using rubber matting to protect grassed verges from damage especially in the winter months where parking of vehicles already takes place.

I have undertaken as per usual several 'Walkabouts' around the estate during the past month.
