There were 292 incidents reported in your area during May. Incidents of note are as follows: -

02/05/2024 12:00 – A resident received a scam call from a criminal purporting to be from the BT technical department. The criminal told the resident that BT had received a notification that their iPad was not secure, they then stated they would put the resident on to google and asked them to type for help on their iPad. Several different pop ups then appeared on the screen. The scammer then tried taking the resident through various steps disguised as being helpful but actually attempting to steal various pieces of identity. Thankfully, the resident was alert to what they did and hung the phone up before contacting their banks to alert them to what had occurred. No financial loss occurred thanks to the vigilance of the resident and then taking the correct steps of hanging up and then contacting your bank.
